Equality, Diversity and Inclusion Action Plan

2018-2021

Glasgow Women's Library: Equality, Diversity and Inclusion Action Plan, 2018-2021

Glasgow Women's Library is the only Accredited Museum in the UK dedicated to women's lives, histories and achievements, with a lending library, archive collections and innovative programmes of public events & creative learning opportunities.

GWL's Vision is of a world in which women's historical, cultural and political contributions to society are fully recognised, valued and celebrated by all.

Our Mission is to celebrate the lives and achievements of women, champion their historical, cultural and political contributions and act as a catalyst to eradicate the gender gap that contributes to widespread inequalities in Scotland.

Our Core Values

Empowerment: Glasgow Women's Library provides a safe, friendly, empowering environment where women can access the information and opportunities they need to find their voice and discover the confidence to embrace new opportunities, take control of their own learning and personal development and to change their lives for the better.

Addressing Inequalities: We recognise that there are inequalities that create barriers for women to fully participate in many aspects of life. We will work with and for women to make Scotland a better place for all.

Valuing All Women: We value all women and work proactively and creatively to bring women together from diverse backgrounds, so that each individual shares a sense of equal ownership and belonging in this organisation and in order to invest in women's social and cultural capital to the benefit of our nation.

Learning and Development: We affirm that we are all learners and are committed to sustaining and supporting the personal growth of individuals, and to encouraging the development of skills, knowledge and self-confidence.

Diversity and Inclusivity: We are fully committed to diversity, respecting human rights and creating opportunities for inclusive access and participation across Scotland. We strive at all times to promote the achievement of individual potential, to operate transparently and to involve people across the organisation in decision-making.

Openness and Respect: We are committed to maximising the accessibility of our resources by ensuring that they are freely and widely available; by providing a courteous, friendly, professional and non-discriminatory service and by working to ensure that all our staff, Board Members, partners, volunteers, learners, users, donors and supporters treat each other and are treated with respect.

Glasgow Women's Library aims to:

- Advance the education of the general public by increasing the knowledge and understanding of women's history, lives and achievements.
- Provide information on a range of women's and gender equality issues.
- Enable women, particularly the most vulnerable and excluded in society, to access the information, resources and services they need to make positive life choices.
- Break down barriers to learning and participation for women so that they become fully active citizens, develop skills and knowledge, engender self-confidence and equip themselves to pass on their experience to benefit their families and broader communities.
- Be a catalyst for change by taking a lead role in redressing the neglect of women's historical and cultural contributions to Scottish society.
- Pioneer new ideas of, and approaches to, culture and heritage that bring together people from the most diverse backgrounds.
- Invest in women's social, cultural and creative capital to the benefit of our nation.
- Increase our financial independence.
- Provide the highest quality service to all visitors, audiences, users and enquirers.

Introduction

Equality, Diversity and Inclusion (EDI) are intrinsic, non-negotiable values throughout Glasgow Women's Library. They underpin every aspect of GWL's work as a unique organisation serving the needs of broad audiences throughout Scotland, and form the basis of our key framework documents: the Strategic Plan, Business Plan and Learning Policy.

The principles of Equality, Diversity and Inclusion are shared across the organisation, from members of the Board of Directors, the paid staff cohort to volunteers, with a shared belief in and commitment to the positive implementation of these values in our day-to-day work, along with constant striving for improvement. GWL recognises that our key aims can only be fully achieved if Equality, Diversity and Inclusion drive all aspects of our service delivery and development. Further, we also firmly believe that the more equal, diverse and inclusive an organisation is, the more everybody in our communities and our country benefits.

This Equality, Diversity and Inclusion Action Plan was compiled with the active involvement of the Board of Directors, the paid staff team and volunteers, some of whom are also event and project participants and learners at GWL. It presents an evidence-based current 'snapshot' of involvement across GWL of people with Protected Characteristics; Highlights where the priorities for action lie; Sets out the objectives for the period 2018-2021; and measures risk factors involved.

In writing this EDI Action Plan, GWL has produced a robust, positive and achievable strategy that will support the organisation, and hold it accountable, in its delivery of the highest quality work to the broadest possible audiences.

Compiling the Action Plan...

Review of the Previous Action Plan

The previous EDI Action Plan detailed five Objectives to work towards:

1. Ensure that the GWL team is truly equal, inclusive and diverse with high levels of awareness, skills and knowledge regarding EDI issues across the organisation
2. Ensure that all partner organisations and individuals external to the organisation working with GWL fully understand, support and adhere to GWL's EDI approach and commitments
3. To increase the number of local women actively participating in and meaningfully engaging with the Artistic Programme, Learning Projects and Collections Development
4. To increase the number of disabled women actively participating in and meaningfully engaging with the Artistic Programme, Learning Projects and Collections Development
5. To increase the number of BAME women actively participating in and meaningfully engaging with the Artistic Programme, Learning Projects and Collections Development

Within these Objectives, 14 targets were set, of which 11 were achieved with seven of these 11 surpassed. One example of exceeding performance is that, in relation to Objective Four above, although not originally cited as an action or target, GWL initiated two new accessible formats to its seasonal public events programmes: a large print version and an audio version, both easily available on the GWL website next to the PDF of the printed version of the programme. Further, GWL has also added image descriptions to describe content on its Social Media.

Some previous tasks and targets have now become fully embedded in standard GWL processes, such as the rolling programme of training to be delivered in house – 'This Is Who We Are' training is delivered at least bi-annually to each new intake of personnel and has also now also been extended to include a version aimed at the general public. This has resulted in personnel reporting a greater understanding of EDI issues and GWL Core Values. In addition, the EDI Action Plan is now part of the 'Working with GWL' process that all potential partners must adhere to in advance of embarking on joint projects or becoming part of the GWL public events programme.

The three targets that were not achieved in full were:

In relation to Objective 1, *Ensure that the GWL team is truly equal, inclusive and diverse with high levels of awareness, skills and knowledge regarding EDI issues across the organisation*: 'To upskill a team of between six-ten GWL new project participants during 2016-2017 as a precursor to developing and delivering bespoke EDI training to external agencies'. Although GWL exceeded its target in terms of developing and delivering bespoke EDI training to external agencies, this was undertaken primarily by two paid GWL staff members. The need for additional capacity and funding in order to equip project participants to train external agencies became clear during this process, and a funding bid to resource this will be submitted in September 2018.

In relation to Objective 5, *To increase the number of BAME women actively participating in and meaningfully engaging with the Artistic Programme, Learning Projects and Collections Development*: two targets were not fully achieved, 'Organise two specific activities per term with ESOL learners, starting with the 2016-2017 academic year;' and 'House 100-150 community language books by the end of 2017.' In relation to ESOL learners, as ESOL is only hosted at GWL, but its tutors, curriculum and teaching is provided by Clyde College, it is sometimes more challenging to effectively embed GWL events and activities in to the ESOL learning programme. However, at April 2018, a number of ESOL students are involved in making a new film in Community Languages to welcome visitors to GWL and this target will be carried through to this revised EDI Action Plan. In the case of community language books 90 have been secured, and in the absence of any acquisitions budget, GWL needs to rely on donations from publishers – continuing to increase the number of these will remain a priority.

Audience (learners, visitors, project users, supporters)

It is not possible to gather detailed profile data for each and every visitor, project user and event participant, however GWL has built its own bespoke CRM Monitoring and Evaluation system to measure and analyse data gathered from attendees at our public and learning programme events and activities, and from other groups with which we meaningfully engage. The following percentages are based on the information gathered from monitoring and evaluation forms submitted.

Gender

Female	90%
Male	3%
Non Binary / Trans / other	7%

Age (we have not included children)

16-24	12%
25-44	42%
45-65	28%
65+	18%

Sexuality

Heterosexual / straight	72%
Gay / Lesbian	12%
Bisexual	14%
In another way	2%

Ethnicity

76% identified as White Scottish / White British.

The remaining 24% self-identified from 32 categories of ethnicity description based on the Census, including:

African/African Scottish/African British:	1%
Black/Black Scottish/Black British:	2%
Caribbean/Caribbean Scottish/Caribbean British:	1%
Indian/Indian Scottish/Indian British:	3%

Pakistani/Pakistani Scottish/Pakistani British:	1%
Chinese/Chinese Scottish/Chinese British:	1%

Other:	2%

Disability (please note that these percentages total more than 100% since people can have more than one disability)

Learning disability:	4%
Mental Health Condition:	16%
Non-disabled:	70%
Physical Impairment:	4%
Sensory Impairment:	3%
Other disability / impairment / long-term / chronic condition:	6%

Socio-economic group

This is more difficult to gather data to be specific about, but as we are based in the heart of a community that is in the top 5% most deprived in Scotland, it is probably reflective that 37% of our library 'borrowers' identify as 'low income / unwaged / student.'

Locality

Our visitors come from around the world and around the corner and data reflecting geographic spread will differ between figures for visitors to the museum and those attending specific events / learning activities. However, the breakdown for visitors is as follows:

- Glasgow 34%
(of these, 21% are from our immediate neighbourhood - 7% of overall visitors)
- Rest of Scotland 29%
- Rest of the UK 16%
- International 21%

GWL undertakes targeted project development, delivers dedicated events, and houses archive and museum collections that focus on, or are of particular interest to, specific groups, for example: a Lifelong Learning project aimed at BAME women; *Collect:if*, a dedicated project supporting Women of Colour creatives; daily ESOL classes; the occasional production of an LGBTQIA Zine 'Hens Tae Watch Oot Fur', produced by GWL's in house group; the housing of the UK national Lesbian Archives and several collections relating to groups with Protected Characteristics across the Equality, Diversity and Inclusivity spectrum;

the provision of an Adult Literacy project; and projects aimed at expanding horizons and increasing the cultural and social capital of women, for example 'Seeing Things'.

GWL is located in an area of social-economic deprivation and includes local people among its volunteer team, active and regular project participants, and audiences for public events.

Across the categories of Protected Characteristics, monitoring and evaluation evidence gathered suggests that, on the whole, GWL performs well within the confines of restricted capacities in some areas.

To determine the direction and priorities of this Action Plan, 17 people from across the organisation, including Board members, paid staff and volunteers, were actively engaged in a one-day session. Objectives have been set taking into account the organisation's Strategic Plan, Business Plan, Learning Policy, SWOT analysis, projects and services provided, and current EDI performance. The Objectives therefore broadly focus on the Protected Characteristics of Disability, Race / Ethnicity and Local Women (Socio-economic Deprivation).

Collecting Data and Benchmarking

Glasgow Women's Library consistently measures the impact of its work with individuals and groups. This information is captured on an ongoing basis through a wide range of methods including recording the uptake, retention and levels of participation at all events and activities.

GWL has built its own unique, bespoke and comprehensive CiviCRM Monitoring and Evaluation tool called Library Out Loud (LOL), a depository used by staff to input quantitative and qualitative Monitoring and Evaluation data gathered from each event and day-to-day visits, activities and enquiries to GWL.

GWL's methods of gathering information related to benchmarking include: consultation events and projects (such as previous initiatives #GWLHearsMe #GWLNeedsYou and #MyMuseum); Monitoring and Evaluation forms capturing feedback and data after each event; group and individual verbal feedback; Social Media - blogs, email, Twitter, Facebook and website feedback; third party feedback (e.g. from partners with whom we work); photo and video recordings of events; Visitors' Book; Tracking Borrowers' Numbers, data and trends; case studies; one-to-one meetings with volunteers; staff supervision; and a wide range of other instances to capture and share information that will help to assess GWL's work on an ongoing basis.

This approach to Monitoring and Evaluation gives valuable data needed on demographics, whether GWL's target audiences and learners are participating, the extent and quality of GWL's impact on changing people's lives for the better and GWL's performance in relation to achieving project outcomes.

Different aspect of GWL's work is funded by up to ten different project funders at any one time and LOL enables the organisation to review performance using feedback from users, learners, audiences, visitors and volunteers, and assess this against the targets and milestones set and, based on this reflection, professionally plan successive seasons' programmes with any necessary adjustments.

Appendix Three - Good Practice Models of EDI in Action

Take One Action - a good example of partner evaluation in event delivery whilst working with GWL.

Stagetext - provides captioning and live subtitling services, as well as information and training, to theatres and other arts venues to make their activities accessible to people who are d/Deaf, deafened or hard of hearing: <http://www.stagetext.org/>

Appendix Four - Additional EDI Improvements by GWL

In addition to the specific targets and priorities identified in this Action Plan, GWL strives to continually improve its EDI performance. During the period of this Action Plan, the following additional measures have been implemented towards this:

- Image Descriptions are always included on GWL's Twitter posts, and GWL will only share other organisations' content if they also include Image Descriptions
- GWL proactively encourages other organisations to make their own Social Media content more accessible by sharing knowledge and expertise, for example this thread from July 2019: <https://twitter.com/womenslibrary/status/1146747843790680064>
- GWL has developed a Pay it Forward initiative to enable people to pay by donation for ticketed events so that others can attend – other organisations have been inspired to develop similar schemes as a result
- GWL has responded to requests for clarification on its Women Only definition by regularly seeking advice, discussing the issues and revising wording where necessary
- GWL continues to deliver sustained projects in H. M. Prisons, working directly with 45 women in several prisons during 2018-19
- Prayer mats and a prayer screen are now in place in the Library
- GWL has revised its colourways and font sizes in its printed materials (Events Programmes and Women's Heritage Walk / Trail maps) in consultation with volunteers regarding readability, especially in relation to dyslexia
- A portable Induction Loop is in place at the Front of House desk
- Autism Awareness Training for staff has resulted in measures such as Quiet Mondays being instigated, along with proactive and clear procedures to support people
- New directional signage to the GWL building is in place from all directions around the area, with walking and cycling timings detailed; Signage at the local train station is in progress

- A new Readers of Colour group for women and non-binary people has been initiated by GWL in Edinburgh
- The GWL seasonal Events Programmes are always available to download in large print and audio formats, with a range of voices reading content
- The development of an accessibility checklist for outreach work
- An updated Accessibility Page on the GWL website
- Accessibility tools and resources at Front of House, including magnifying glasses, large print programmes, coloured overlays and large print exhibition information

- A successful and popular creative writing event involving a woman poet with Asperger's traits
- Over 50% of the paid staff team received Mental Health First Aid Training

- Funding secured from the Glasgow City Council Area Budget to provide resourcing as part of GWL's new strategy for future audio describing of exhibitions and BSL signing of events
- GWL's public statement in relation to Black Lives Matter activism in response to the murders of George Floyd and Breonna Taylor stated that GWL unequivocally stands in solidarity against racism, oppression and inequality, and that *'Over the coming days we will be reflecting, interrogating and further educating ourselves whilst sharing content which amplifies Black women's voices'*
- Regular quarterly team discussions on anti-racism have been instigated

- Staff accessed funds and distributed tablets / devices to learners / volunteers at home during Covid-19 lockdown
- In January 2021 it was noted that out of the 30 active ALN learners supported by GWL, 20 are BAME women and are actively participating in the ALN project
